A PAVING CONTRACTOR
IS TOUCHED HEAVILY

GIVEN UP THREE THOUSAND,
EIGHT HUNDRED AND FIFTY,
EIGHT BESIDES COSTS.

By United Press.

Columbus, July 3.—After two years all of the bribery charges against city officials and employees and contractors were dropped here yesterday.

In all the county has sent Fred Immel and Fred Laid, former members of the Board of Service, to the penitentiary for terms of four years. Charles Carr, another member of the Board, served 90 days for having been interested in firms which sold supplies to the city, and paid a fine of \$250 and costs. The indictment against him for having received a bribe of \$2,000 from R. Stanley Rhodes, manager of the local plant of the American Sewer Pipe company, was dropped. Rhodes was acquitted last week on the charge that he had bribed Carr. It is because of this that the prosecution deemed it wise to close all of the cases and allow such city employees as already had pleaded guilty or over whom indictments still were hanging to go free upon the payment of fines.

In the case of M. F. Bramley, president of the Tremble Paving company, four remaining indictments were dropped on condition that he pay \$2,500 and costs. This was the amount of expense the county incurred in locating Nelson Cannon, one of his employees, and a principal witness. Cannon was returned from Canada.

Bramley, a former member of the General Assembly, already had paid fines amounting to \$1,500 and is barred from ever again holding public office. He has suffered considerably in his business, as well as being put to a great expense in defending himself.

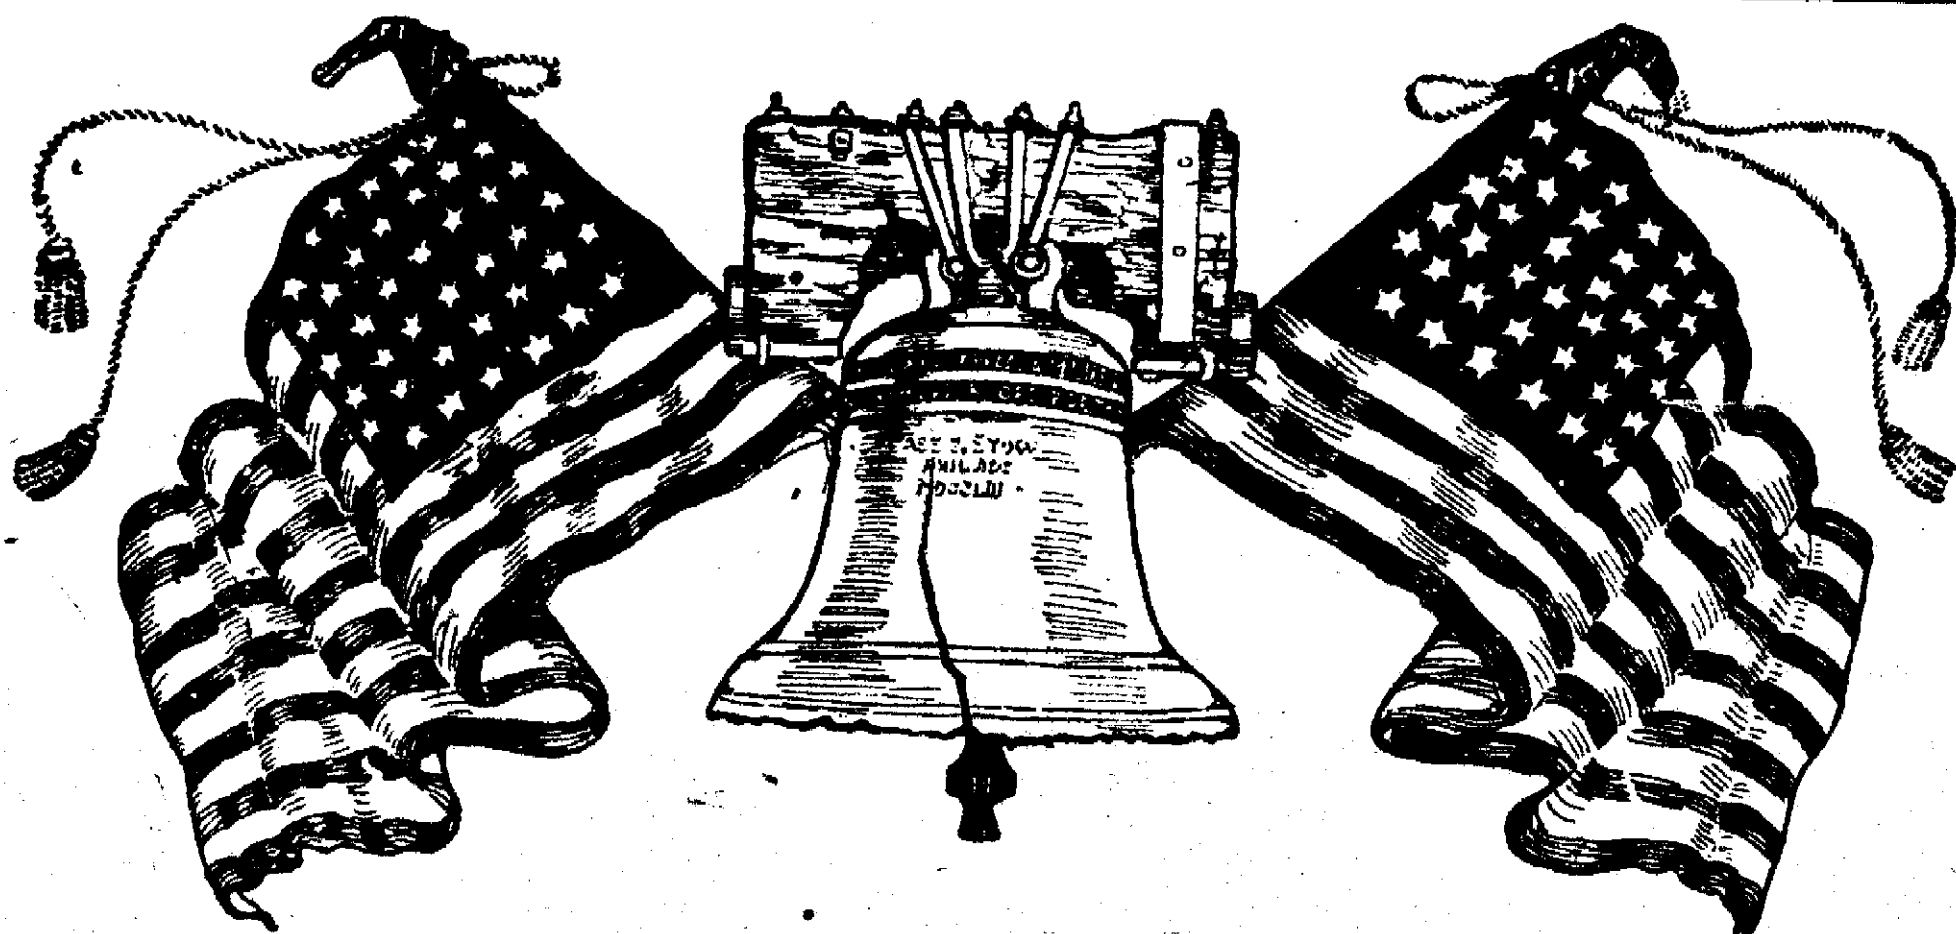

Henry C. Lang, an employee of Bramley, was relieved of all charges against him on the payment of a fine of \$500. Lang has put into the treasury a total of \$4,500 in fines.

Arthur Beck, formerly of the City Engineer's office, paid \$200, which makes for him a total of \$1,500 besides having forfeited a bond of \$1,000 when he skipped to Australia.

Nelson Cannon, a witness for the state and an employee of Bramley, was given a clear sheet on the payment of a fine and costs amounting to \$750. He has paid on other charges a total of \$2,500 and suffered a long confinement in the county jail after his return from Canada.

The indictment standing against Alfred Shoemaker, a city paving inspector, was nolleed, as he paid a fine of \$250 on another charge.

Special to the Daily News.

Phillipsburg, N. J., July 3.—The first serious Fourth of July accident in this vicinity occurred here when two boys each lost a hand and may be blind.

Charles Giddens and Ellsworth Davis, each 16 years old, were loading a cannon with dynamite when there was an explosion. Their fingers were blown off and Davis's eyes burned so badly that it is feared the sight has been destroyed. Later the surgeons amputated a hand for each boy.

WATER PIPE

Was Converted Into a Cannon and It Exploded When Fired.

Special to the Daily News.
Montgomery, W. Va., July 3.—While testing a cannon preparatory for the Fourth, Earl Mannors and Kensington Rouses, aged 8 and 10, respectively, were fatally injured at 3 o'clock. The cannon, which was made from a piece of water pipe, was overcharged, and blew up, parts of the metal burying themselves in the faces of the boys.

BIGAMIST

CAPTURED BY MEANS OF A DE-
COY LETTER SENT BY NO. 2.

SECOND VICTIM ACCOMPANIED
SHERIFF TO ST. LOUIS AND
IDENTIFIED THE ACTOR.

Special to The Daily News.

Carmi, Ill., July 3.—After a chase across Indiana and Illinois, Charles Carr, alleged bigamist, was arrested at St. Louis, yesterday, and brought back to this city last night.

The arrest is a sequel to Carr's marriage to Miss Verne Wood here a month ago. Representing himself as a noted actor, he won her with promise of a place on the stage. 12 hours after marriage evidence came to her that Carr was a bigamist, and when she confronted him he fled. Two days ago she received a letter from him in St. Louis, begging her to come to him.

She wrote a decoy letter, stating that she would come, and went, accompanied by Sheriff Grissom. She was given an ovation on returning with the prisoner. His first wife, living in Topeka, Kan., will assist in the prosecution.

EVIDENCE

Produced in the Cases
Against the Nashville
Liquor Dealers

WAS NOT SUFFICIENT IN THE
TEST CASE OF STATE-WIDE
PROHIBITION MEASURE.

JUDGE HART'S RULING
ON LIBERATING THEM

WAS THAT A JURY MUST DECIDE
WHETHER OR NOT GOODS
WERE INTOXICATING.

Special to The Daily News.

Nashville, Tenn., July 3.—The first case of alleged state-wide prohibition law violation here came up before Judge W. M. Hart, of the criminal court, yesterday, and that official decided that there was not sufficient evidence adduced to hold the men arrested yesterday for selling what known as "beetroot" or "beer beer," and the prisoners were released.

The men had been bound over from the City Court to the Criminal Court.

The point raised by the counsel for the defendants was that the warrant was faulty in that it charged a violation of the "state-wide" law when practically every law on the statute books is state-wide.

The further point was made that the police judge, when binding the defendants over to the criminal court, had acted in the capacity of a committing magistrate, and as such, should have complied with the state laws, which requires that such warrants shall be accompanied with sworn testimony.

Judge Hart gave to the grand jury a special charge on the prohibition law as contained in the Holladay bill.

In defining an intoxicant he told the jurors it was for them to determine whether or not the liquid sold was sufficiently alcoholic to intoxicate a normal man in good health.

He told the jurors that it was their duty to make inquiry under this law and that they might send for witnesses.

Judge Hart said he had been informed, but not officially, that the substance called "beetroot" or "beer beer" contained one-half of one per cent of alcohol and that if their investigation showed such drink was intoxicating, to find a presentment; if not, they duty ended.

On the latter proposition Judge Hart instructed that a man had a right to stare liquor at home, in an office, a locker or elsewhere so long as he did not sell it.

QUIET AFFAIR, THIS.

DRAWING OF FIRES FROM BIG
PLANTS AT NEW CASTLE
AND SHARON, PA.

REGARDED BY THE MEN
AS IN THEIR FAVOR.

EFFORTS ARE NOW BEING MADE
TO ORGANIZE THE NON-
UNION SHOPS OF TRUST.

By United Press.

Pittsburg, July 3.—Officials of the Amalgamated association today, place their interpretation of the steel trust's drawing of fires from the big plants at New Castle and Sharon, as indicating that the company will abandon the idea of attempting to persuade the men to return to work under non-union conditions and that no attempt will be made to operate these mills under the "open shop" plan. President McHardie said he was satisfied with the situation, the strike order being almost unanimously obeyed. He thinks the company is unable to secure sufficient men to operate any of the larger plants at their present capacity and the non-union sheet-iron plants are insufficient to fill the orders on the company's books, so they must lose money or run union plants. An attempt to organize non-union shops is now being made.

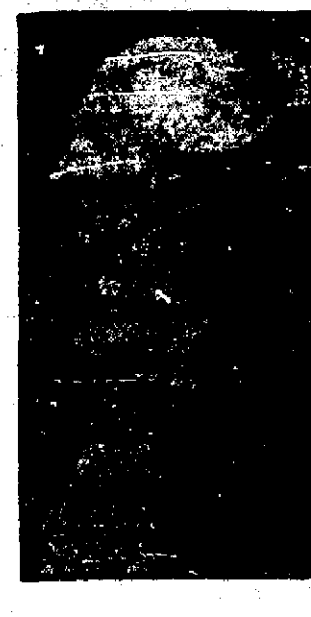

BOUND OVER

DAN TENNIS ACCUSED OF AS-
SAULT AND BATTERY.

A transcript was received at the county clerk's office today from Justice J. L. B. Leatherman, of Harrod, denoting the binding over to the common pleas court of Dan Tennis, charged with assault and battery. The defendant was released on bond. He is accused of attempting to cut J. E. Carver with a large knife on the occasion of his hearing. The matter will be investigated by the next grand jury.

DIVORCE GRANTED.

Ella Barry was this afternoon granted a divorce from John Barry on the grounds of wilful absence. The case was heard before Judge Klinger and several witnesses were examined.

GUILTY MAN CONFESSED WHEN
HE LEARNED OF THE AR-
REST OF INNOCENT ONE.

Special to the Daily News.

San Francisco, Cal., July 3.—Jas. Edward Cunningham, a laborer, yesterday confessed to the murder of Miss Caroline Brash, cashier for the Gray Brothers' Construction company, who was slain in the company's offices last Wednesday. Cunningham surrendered himself because another man was under arrest.

Cunningham entered a newspaper office and made his original statement, which later was repeated to the police. The Detective Department was not notified until yesterday when representatives of the paper delivered the man into custody, together with a revolver with which the crime was committed.

Cunningham said he killed Miss Brash when she refused to correct an alleged error in his pay envelope.

When You Receive Your Salary Check

It would be a good time to start your bank account or add something to the one you are already carrying. A good idea would be to deposit the entire amount received and make checks for your bills. In this way you could permit your monthly expenditures to be taken from your bank account, and everything has been paid. Every month that you increase will be a step toward independence and a new way of life. Profit by the experience of others, for the successful men who are enjoying comfort now are those who started banking. Modern progress has made a bank account within the reach of every one.

ONE TO BE DEPOSITED AT FIVE PER CENT. SAFE, SECURE, CONVENIENT FOR SAVINGS AND DEFERRAL.

Nine years ago The Lima Home & Savings Association began paying 5 per cent for deposits in any amount with privilege of compound interest. On account of the safe and secure manner in which such deposits have been handled, many people of large and small means have accepted the very liberal opportunity of having their funds invested at a rate that is worth while, until nearly \$353,000.00 have accumulated earning 5 per cent. These deposits are used by this Association only for loans on city and farm homes in Lima and vicinity. Nothing but first mortgages are taken to secure these loans; ample insurance is required for the Association's protection, as well as frequent reduction of principal.

Another feature of safety is the annual examination by state authority to which this Association is subjected. The last examination was completed on the 25th of May, 1909, and included an investigation of all of the Association's investments and securities.

All persons with money to lay by at the present rate this Association has been paying for many years who are seeking a place where safety, security and convenience are in every transaction of its business, are invited to its office in the Masonic Building, west of the post office, Lima, Ohio.

VICTIM

MAN WHOSE INFIRMARY DIRECTORS KNOW FATHERS AWAY.

YOUNG WOMAN CONFINED AT INSTITUTION FOR FIVE WEEKS.

SUCCESS.

It is an exceedingly sad case that came to an even sadder close at the county infirmary at 7:30 o'clock this morning, when Bertha Prechter, aged 21, passed away, after suffering for five months or more with an incurable disease. Just five months ago the deceased gave birth to a baby boy, which still lives, and is at the county infirmary. The condition of the infant is exceedingly serious, it having contracted the same disease its mother suffered with.

The deceased was taken to the infirmary five weeks ago, her mother accompanying her, and who has since taken care of her. The young woman was the victim of a man, who is known to the infirmary directors, and who they attempted to have arrested, but he escaped them, and his whereabouts at the present time are unknown. Superintendent Fraunfelder and wife have done all in their power at the infirmary to save the life of the little mother.

The body was removed to the Williams & Davis morgue in this city, and a postmortem examination conducted. The time of the funeral services has not yet been decided. The girl has no other near relatives excepting her mother.

ROUND-UP.

Escamilla Hernandez, who made such a hit here as "The Wolf" last season, is the leading actor in a decidedly clever motion picture feature at the Pauro today, entitled "Mexican Sweethearts."

An interesting feature of the business in probate court is the fact that a total of 63 marriage licenses were issued during the month of June. This is exactly the same number as issued during the same month in 1908. June is always a heavy month and this proved that 1909 was no exception.

Lester Loch, one of the congenial skaters at the Manhattan was injured Friday afternoon while diving off the ladder at McCloskey's Lake. Loch was the victim of his friends, Tommy O'Connell and Roy Reitz, who made him dive rather unexpectedly. Beyond a badly bruised back and shoulders, Loch is otherwise uninjured.

The book editor of the Republican-Gazette was in evidence in this morning's issue of that paper.

CAREW PUT OUT FOR GOVERNOR

FRIENDS OF MERCHANT SUGGEST HIM AS GOOD MAN TO NAME.

Special to The Daily News.

Cincinnati, July 3.—Republican state officers have been apprised of the suggested candidacy for governor of J. T. Carew, the Cincinnati merchant at the head of the corporation of Mabley, Carew & Co.

If proven ability to gather in votes is an index, then Carew has claimed enormous popularity, for he has polled something over a million votes. But most of the voters who marked his name on the ballot were unaware he was a candidate for anything and were quite indifferent to the fact that he was. To see he has been elected a presidential elector in Ohio by the votes of those who were really voting for the presidential nominee when they voted for him.

Talk of Carew for governor is based on the supposition that it would be good politics to nominate a Cincinnati Republican to oppose Harmon, a Cincinnati Democrat. Opinion in Cincinnati is said to be divided on this point, many there believing that it would help to have the candidate come from southern Ohio, but that it is not essential that he be from Hamilton county.

Congressman Nicholas Longworth is the only other Cincinnati who is considered a possibility for governor.

BOOK KEEPER

SEES FOR WAGES DUE HIM BY LOCAL PLANT.

Clarence W. Jones is plaintiff in an action filed against the Gas Power Producing company, sued in common pleas court Saturday afternoon. The petition states the plaintiff had an agreement with the defendant company to act as a bookkeeper and accountant at a salary of \$125 a month, beginning his duties March 1, 1909. The plaintiff says he worked until July 1, 1909, a period of four months and that he received but \$147.86. He claims that there is still due him \$322.14 on salary account and he seeks for the latter amount. Barr & Jackson are his attorneys.

PRESIDENT

AND PARTY WILL LEAVE WASHINGTON THIS EVENING.

TO TAKE UP THEIR SUMMER RESIDENCE AT BEVERLY — A BUSY WEEK AHEAD.

By United Press.
Washington, July 2.—President Taft and party will leave Washington this evening for Beverly, the summer home of the President, preparatory to his program of assisting several New England cities in the celebration of a few hundred years of life and prosperity. Members of the Taft family, the military aide, the President's secretary and the secret service guards will be in the party. They will arrive at Beverly tomorrow and arrangements have already been made for their arrival at the summer residence, servants having gone on in advance.

The President will have a busy time next week. He will leave Beverly late Sunday for Norwich, Conn., where he will spend the fifth in a celebration of the Fourth and the 25th anniversary of the town's foundation. That evening he will go to Fort Ticonderoga, at the foot of Lake Champlain, where the first of a series of tercentennial celebrations will be held. He will then go to Plattsburg, N. Y., and will make his headquarters there on the sixth and seventh. He will go to Burlington, Vermont, on the eighth and will return to Washington on the ninth.

NEW YORK CITY

Is Threatened With One of the Greatest Bread Famines in History.

By United Press.
New York, July 3.—The city of New York, today, faces one of the greatest bread famines in its history. Ten thousand bakers employed throughout the city have threatened to organize and execute a complete walk-out unless the master bakers accede to their demands for a "closed shop," union wages and a ten hour work day.

The announcement of the demands of the workmen was followed by a monster parade, which was given by the Kosher bakers, who just recently concluded a successful strike in which they gained recognition for their union.

ENTOMBED BY THE FALLING OF A DOCK WALL IN WALES.

RESCUERS ARE WORKING IN IMMINENT PERIL—ELEVEN BODIES RECOVERED.

By United Press.
Newport, Wales, July 3.—Rescuers were at work all night digging entombed men from an immense mound of earth and timber which marks the collapse of a wall of the Alexandria dock. The resulting party has already recovered the bodies of eleven dead and of fourteen injured who were taken out of the ruins several hours since died.

ABSTRACT OF ORDINANCES

Regulating the Sale and Use of Fire Works, Etc., in The City of Lima, Ohio.

No firecrackers or torpedoes shall be sold or offered for sale, except on the Fourth of July, except when the Fourth day of July shall fall on Sunday, then they may be sold the day before and the day after.

No blank cartridges or blank cartridge pistols shall be sold at any time.

No toy pistol, torpedo canes, cannon firecrackers, anvils, toy or other cannon shall be sold or offered for sale at any time.

No person shall use, discharge or explode any torpedo canes, toy pistols, cannon firecrackers, anvils, toy or other cannon.

No person at any time shall place or cause to be placed any dynamite or other explosive upon the tracks or rails of any steam railroad, street railway or interurban railway.

No person shall use, discharge or explode upon the public streets, alleys or public places of said city, any firecrackers, torpedoes, fireworks or explosives of any kind or nature, except on the Fourth day of July.

That any person, firm or corporation violating any of the provisions of this ordinance shall on conviction be fined not exceeding fifty dollars, or be imprisoned for a period not to exceed ten days, and pay costs of prosecution, and shall be liable, further, person or property.

WORK MEN

RESCUERS ARE WORKING IN IMMINENT PERIL—ELEVEN BODIES RECOVERED.

By United Press.
Newport, Wales, July 3.—Rescuers were at work all night digging entombed men from an immense mound of earth and timber which marks the collapse of a wall of the Alexandria dock. The resulting party has already recovered the bodies of eleven dead and of fourteen injured who were taken out of the ruins several hours since died.

The exact number of those who were entombed is not known but it is believed there were at least forty. The members of the rescuing party are working with lanterns in imminent peril from the wall which continues to shift and crumble. Crumbling earth and falling timbers impede their work greatly. It is now believed that none of those who are still entombed can be alive, those who were taken out having been rescued immediately after the cave-in. Those who are yet buried in the debris are under the ruins of the wall.

With the rise of the tide this afternoon, water percolated through the dam into the dock permeating the entire mound and debris is filling the trench. It is now a certainty that the men who have been alive in caches under the fallen timbers are now drowned.

SHORT ILLNESS

RESULTS IN DEATH OF POPULAR YOUNG GIRL.

Following a four days' illness Miss Pearl Shaw passed away at the home of her parents, Mr. and Mrs. A. J. Shaw, of 111 East Spring street, Friday afternoon at 3:30. The deceased was born November 27, 1890, near Spencerville, and was just 18 years of age at the time of death. She was employed as a clerk and had a host of girl friends and fellow-workers who are deeply grieved over her demise.

The funeral services over the remains will take place at the United Brethren Church Monday morning at ten o'clock. Interment will be in Woodlawn. The Rev. A. W. Ballinger will have charge of the services.

CHILDREN'S DAY EXERCISES.
A special patriotic program suitable to the day will be rendered by the children of the First Christian Sunday School tomorrow evening beginning promptly at 8 o'clock.

The members of the church and Sunday school are urged to be present at the morning session at 9:15. Come early. Bring your friends with you.

The public is cordially invited to attend both the morning and evening services.

Tifton, July 3.—From the lips of Benjamin S. Hill, a pauper in the Seneca county infirmary here, came the dying statement that he was the son of the General Hill, of civil war fame, who was later governor of Georgia. Hill was sixty years old and a number of years ago resided at Atolia long enough to gain a residence in the county. Two years ago he lost both feet in a street car wreck at Jackson, Mich., and was sent to the infirmary here. Hill always kept secret information concerning himself.

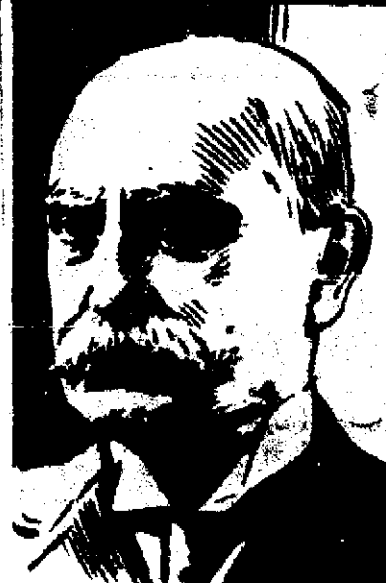

OLIVE OIL TALK.

The medicinal and beautifying qualities of pure Olive Oil are numerous and are becoming better known every day. There is nothing like it for overcoming a generally run-down and weakened condition of the system, while a teaspoonful of it after each meal will build flesh, gradually overcome indigestion and is said to be a certain preventive of appendicitis and liver troubles. It is very beneficial when rubbed over the whole body after bathing, and is excellent for massaging a dry scalp. We recommend the Extra Fine Lucina Olive Oil as superior to all others. It has that rich, delicate, nutty flavor which it is impossible to secure in oils made in any other locality than Lucina, Italy. When in need of Olive Oil phone us and we will deliver it to you.

Portsmouth, Ohio, July 3.—Goddard the Ohio Wesleyan pitcher singled by the locals, showed well in his first game. Lima bunched a pass and two hits for one run in the sixth but in the other innings he had the measure of the league leaders. Totman's pass, Newnam's error and Doran's triple gave the home team their runs. O'Hara's playing was spectacular. The score:

MOTHER CONFESSES.

That Her Boy Was Killed By His Stepmother.
Special to the Daily News.
Cumberland Gap, Penn., July 3.—David Moore and wife are in the Jonesville (Va.) jail, where they were taken last night to escape probable mob violence at Erwin, Va. Moore is charged with having murdered Harry Lee Nushell, his five-year-old stepson. The boy died last Sunday, and Moore is said to have stated that he died of fever. The boy's mother made a confession, in which, it is said, she charged that Moore had caused the boy's death. It is said Moore had caused the child to carry lumber from a saw mill with which the coffin subsequently was made.

Spend Your Vacation at The Star Island House

STAR ISLAND, MICH.

Right in the Heart of the St. Clair Fishing Grounds.

THE IDEAL SPOT FOR RECREATION.

The thought of the long summer days brings to nearly all of us a longing to be away from the city's noise and dirt, the perplexities of a strenuous business life, the effects of winter's confinement and naturally we seek the pure, bracing lake breezes, and the comforts of a well-conducted hotel.

The renowned St. Clair Flats, the American Venice, is the most beautiful and delightful of Michigan summer resorts, and appeals to all who enjoy aquatic amusements and sports, which are here both varied and unusual.

ON THE WAY.

Being but a short distance from Detroit, the trip by boat from this city is one of the most fascinating of fresh water journeys. Leaving on the beautiful "Tachno," or "City of Toledo," queens of fresh water pleasure Steamers, passing beautiful Belle Isle, Detroit's famous park, and viewing the interesting Canadian scenery along the banks of the Detroit River, the trip across Lake St. Clair affords a never-tiresome pleasure even to the thousands who, season after season, have been accustomed to this diversion.

ORATORICAL WASTE.
It would be interesting if the senate would take an informal vote on the corporation tax proposition now, and proceed with the debate as if no vote had been taken; and when it is concluded compare the final vote with the informal one, just to see how much good all the wordy war has accomplished. We warrant the lists would be almost identical.
There is one thing yet to dawn on civilization and that is the uselessness of debate. It is rare that anybody's opinion is changed by controversy. Take these Congressional Records full of the speeches of the members of the house and the senate, a hundred cubic feet of oratory and not a single preconceived opinion made different by it all. It is only time and material wasted in wind.
But the trouble doesn't stop with waste, merely. These speeches have so confirmed men in their own opinions as to render them incapable of sitting in solemn judgment on any question. The result of considering a nation by oratory ought to be abolished, or at least regulated. There is about as much reason for regulating it as there is for regulating the liquor traffic.—Ohio State Journal.
THE JURY.
Judge Kavanaugh of the Chicago Superior court, thus spoke of a juror and his duties:
The general idea that jury service is a mistake is a mistaken one. I think that anyone who has been called two weeks on a jury would exchange his experience. Jury service calls for the highest order of intelligence and for the most honorable of men. It is not alone a privilege to serve as a juror, but it is an honor.
And yet, many people think it is very smart to tell how they eluded jury service and how awfully disagreeable it is. It is possible for the courts to improve the jury service by refusing to let off these "honorable" and "intelligent" people, and by insisting upon the marshal or sheriff putting men on the jury, when telegraph men are called for, who are intelligent and upright. One can hardly conceive of a worse enemy of a free government than a stupid ignorant, unprincipled juror.
ELSIE SIGEL'S FATHER
Says Body Taken From the Hudson Is Not That of Her Slayer.
Special to The Daily News.
New York, July 3.—Pleasant Sigel, the father of Elsie Sigel, visited the Fordham morgue yesterday and pronounced positively that the body recovered Thursday night from the Hudson river is not that of Leon Ling, the man accused of the murder of his daughter on June 9. A coroner's physician previously declared that the body was not that of a Chinaman, but a white boy, apparently 16 years of age. With this phase of the case disposed of, the Elsie Sigel mystery again revolves itself into a search for Leon Ling.

CUTS THROAT AS RESULT OF DREAM
INMATE OF DELAWARE PRISON THOUGHT BLOODHOUNDS WERE AFTER HIM.
LOCAL HOSPITAL HOLD COMPANION ALARMS POLICE, WHO FIND DREAMER WITH RAZOR IN HAND.
Special to The Daily News.
Delaware, July 3.—A dream that bloodhounds were after him led Dan O'Neil, who says his home is in Cincinnati, to cut his throat at the city prison early this morning and he is now dying at the hospital here. O'Neil came to the prison last night with a companion, and asked for a place to sleep. About 3 o'clock this morning the police heard the companion yelling for help and they found O'Neil with a razor in his hand and he threatened to cut from ear to ear. He declared that a dream had caused him to take the step, just as he had bloodhounds were about to leap upon him. Physicians are of the opinion that the man's mind is unbalanced. He is 25 years of age.

Heretofore he has done some work for the Ohio Electric.

RAILROADS
Cannot be Restricted in the Distribution of Cars
AN IMPORTANT RULING HANDED DOWN BY A COLUMBUS COMMISSION PLEASES JUDGE.
THE OHIO COMMISSION IS BY HIM ENJOINED
JUDGE KINKAD HOLDS THAT ORDERS OF THE COMMISSION NOT JUSTLY BASED.
Judge E. B. Kinkad, of the Common Pleas Court at Columbus has rendered an important decision against the Ohio Railway Commission governing its powers in the matter of issuing orders relative to the distribution of cars. He holds that the commission is without power in a judicial capacity, and that it has no authority to make arbitrary rules on the future action of railroads. The injunction sought against the order of the commission is allowed.
The case upon which the decision is rendered has been in the Court for some time, and got as far as the Circuit tribunal, when it was sent back to the Common Pleas Court, and upon this decision a new order was issued. The original complaint was the Carbon Coal Company against the Marietta, Columbus and Cleveland in which it alleged that the railroad was discriminating against it in the distribution of cars in favor of the Black Diamond Coal and Coke Company. The petition set out that in the months of October and November, 1907, the railroad made the following distribution: Black Diamond, 256 cars; Schuler, 63 and the Carbon Company 46, a ratio, it was claimed that could be only justified by the producing and shipping capacity on the part of the Black Diamond Mine of five and a half times the producing and shipping capacity of the complainant mine. In a modified order the commission ordered that the railroad company cease from discriminating against the Carbon Company, holding that it was not exercising the same diligence in serving the complainant company as it did in distributing cars to other operators along its lines.
Basis of Complaint.
Further, it was ordered that when the fuel cars especially consigned to a particular mine on the company's line exceed the percentage allotment they shall be furnished to the mine to which they are consigned but that such mine or mines should have no other cars while such situation existed, and that foreign fuel cars should be always considered and counted as part of the available equipment in making up its apportionment for mine distribution.
This order was excepted to, and carried on review for the Common Pleas Court, Judge Kinkad in his decision holds: "The Attorney-General contends that the Court cannot hear this matter de novo. If that be true the Legislature has undertaken to invest the commission with some of the inherent jurisdiction of the common law Courts."
The decision further recites that the question before the Railroad Commission was one of lawful discrimination by the railroad in favor of one shipper against another. The burden of the claim was that the railroad company furnished the Black Diamond a greater percentage of its coal car equipment than it was entitled to, considering the comparative output of coal. Following this the Court calls attention to the order issued by the commission.
"The making of the order," the decision says "of rating for future conduct of the railroad company is the exercise of the same character of power as that of finding and determining that the company has been guilty of practicing discrimination in the past. The power to hear and determine such questions of duty of common carriers has always been considered to be within the jurisdiction of Courts. AN IMPORTANT RULING HANDED DOWN BY A COLUMBUS COMMISSION PLEASES JUDGE.
THE OHIO COMMISSION IS BY HIM ENJOINED
JUDGE KINKAD HOLDS THAT ORDERS OF THE COMMISSION NOT JUSTLY BASED.
Judge E. B. Kinkad, of the Common Pleas Court at Columbus has rendered an important decision against the Ohio Railway Commission governing its powers in the matter of issuing orders relative to the distribution of cars. He holds that the commission is without power in a judicial capacity, and that it has no authority to make arbitrary rules on the future action of railroads. The injunction sought against the order of the commission is allowed.
The case upon which the decision is rendered has been in the Court for some time, and got as far as the Circuit tribunal, when it was sent back to the Common Pleas Court, and upon this decision a new order was issued. The original complaint was the Carbon Coal Company against the Marietta, Columbus and Cleveland in which it alleged that the railroad was discriminating against it in the distribution of cars in favor of the Black Diamond Coal and Coke Company. The petition set out that in the months of October and November, 1907, the railroad made the following distribution: Black Diamond, 256 cars; Schuler, 63 and the Carbon Company 46, a ratio, it was claimed that could be only justified by the producing and shipping capacity on the part of the Black Diamond Mine of five and a half times the producing and shipping capacity of the complainant mine. In a modified order the commission ordered that the railroad company cease from discriminating against the Carbon Company, holding that it was not exercising the same diligence in serving the complainant company as it did in distributing cars to other operators along its lines.
Basis of Complaint.
Further, it was ordered that when the fuel cars especially consigned to a particular mine on the company's line exceed the percentage allotment they shall be furnished to the mine to which they are consigned but that such mine or mines should have no other cars while such situation existed, and that foreign fuel cars should be always considered and counted as part of the available equipment in making up its apportionment for mine distribution.
This order was excepted to, and carried on review for the Common Pleas Court, Judge Kinkad in his decision holds: "The Attorney-General contends that the Court cannot hear this matter de novo. If that be true the Legislature has undertaken to invest the commission with some of the inherent jurisdiction of the common law Courts."
The decision further recites that the question before the Railroad Commission was one of lawful discrimination by the railroad in favor of one shipper against another. The burden of the claim was that the railroad company furnished the Black Diamond a greater percentage of its coal car equipment than it was entitled to, considering the comparative output of coal. Following this the Court calls attention to the order issued by the commission.
"The making of the order," the decision says "of rating for future conduct of the railroad company is the exercise of the same character of power as that of finding and determining that the company has been guilty of practicing discrimination in the past. CLIPS WINGS OF THE COMMISSION
UNITED STATES CIRCUIT COURT RESTRAINS BOARD FROM ISSUING ORDERS.
OPINION IN THE BLACK DIAMOND CASE COMMISSION WILL APPEAL TO THE HIGHER COURTS—OTHER RAILROAD NEWS.
Special to The Daily News.
Columbus, July 3.—Judge E. B. Kinkad issued an injunction yesterday against the state railroad commission which if sustained by the upper courts, will seriously cripple the commission. It restrains the board from issuing arbitrary orders to railroads.
The commission, investigating coal shipping matters in Southern Ohio, found that certain mine companies were being discriminated against by the railroads in the matter of distributing cars and ordered a distribution pro rata as seemed equitable to the commission.
The Black Diamond Coal company took the question up in the courts. Judge Kinkad holds that the issuing of such arbitrary orders is a usurpation of the rights of the courts.
Judge Kinkad's opinion in the Black Diamond Coal company case was read and discussed at the meeting of the railroad commission yesterday afternoon.
"We believed we had a right to issue that order at the time we issued it," said O. H. Hughes, the lawyer member of the commission, "and we are of the same opinion still. Of course the case will be carried to the upper court and thus commission will be satisfied with nothing less than a decision upholding its hands from the highest court, if that is necessary. In this case the commission ordered a distribution of cars among the companies in accordance with the capacity of the mines. Judge Kinkad holds that an order for future conditions cannot be based on past conditions. Of course there is no better basis for such an order and if this basis cannot be used no such order can be issued."
"It is certain that if the commission has not the power over such questions as discrimination in rates and in the distribution of cars among shippers a large part of the work in the interest of the public which the commission was created to perform is made impossible."

WILL BE A NOTABLE FIGURE AT THE TOLEDO MILITARY TOURNAIMENT
Captain M. M. McNamee, of the 15th United States Cavalry, who will command a maddie troop at Toledo's great Military Tournament, July 4th to 10th, is one of the unassuming type of heroes of whom his country may well be proud.
Captain McNamee entered the army as a private in 1882, earning his commission and reaching the rank of first lieutenant shortly before the Spanish War. He recommended the famous Ninth Cavalry to Cuba, in command of it troop, which on the morning of July 1st, 1898, was the first to receive the Spanish fire.
Three of his men were killed and four wounded, in the assault upon the ridge that day. Captain McNamee was lucky escaping death from a Mauser bullet which crumpled his armor. He was with Colonel Roosevelt during the charge and assisted him in getting his horse over a wire entanglement. In the honor awarded later he was recommended for brevet rank of captain.
After the Spanish War Captain McNamee's command saw some active service in New Mexico, where a Moqui Indian uprising took place.

Why will women take chances with an operation or drag out a sickly, half hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?
For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.
If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

Adopted the Corporation
Tax Amendment Last

BY SENATOR ALDRICHBROUGHT ABOUT THE UNTAN-
GLING OF A Gnarled Par-
liamentary Knot.

Special to The Daily News.

Washington, July 3. — The commander-in-chief was back on his job again Friday in the senate, and the result was most astonishing. By seven o'clock last night the amendment placing a tax of two per cent on the net earnings of corporations was passed, and Senator Aldrich, of Rhode Island, the man who has been leading the tariff revision work, is responsible for it.

Thursday his lieutenants sought in vain to secure an agreement whereby the amendment was to be voted upon next Tuesday, and, simple as that proposition appeared to be, they got all tangled up and were unable to put it through.

Thereupon Aldrich, who expected to stay away until Saturday resting from his arduous labors of the last three months, concluded that his was the only hand that could control the helm of the rickety senatorial craft, and Friday morning when the senate met he was on hand and again in command.

Along toward six o'clock, when it was evident that most of the senators who intended to discuss the corporation tax had projected their observations into the Congressional Record, Aldrich suggested that a vote be taken at one p. m. Saturday.

Cummins' Last Stand.

When it was generally understood that under this arrangement no amendment to the corporation tax measure that might be offered could be debated, but would have to be voted upon without discussion, Senator Cummins, of Iowa, one of the leading income tax advocates, objected. Since it was a unanimous consent arrangement which Aldrich had proposed, this one objection prevented its adoption. Then the Republican leader, impatient at the peevishness of the opposition, decided to take full advantage of the rules, and asked for a vote at once.

Under his skillful management the parliamentary knot which he had carefully tied several days ago, in order to make it possible to secure a final vote on the corporation tax without a direct vote on the Bailey-Cummins income tax amendment, was adroitly untangled.

The income tax measure, fumed and fussed, but there was no way in which the consummation of the artfully laid plan of Mr. Aldrich could be averted. The first vote was on the substitution of the corporation tax amendment for the countervailing duty provision which Senator Lodge, of Massachusetts, had offered to the Bailey-Cummins income tax, merely as a substitute to prevent a direct vote on the income tax prior to a vote on the corporation tax. This was agreed to by a vote of 45 to 31.

Then Lodge withdrew his decoy amendment voluntarily, and the next vote was upon the substitution of the corporation tax amendment for the income tax amendment. This was carried by the very same margin.

Every one of the 45 affirmative votes was cast by Republicans, including such former income taxers as Brown and Burkett, of Nebraska; Crawford and Cramble, of North Dakota; Curtis, of Kansas; and Pyles of Washington. The Republican income taxers who remained steadfast to the cause and voted with the Democrats were Borah, of Idaho; Bristow, of Kansas; Clapp, of Minnesota; Cummins and Dooliver, of Iowa; and La Follette, of Wisconsin. Conservative Senator Bulkeley, of Connecticut, who because he is the president of a prominent life insurance company, is opposed to the inclusion of such concerns in the list of corporations subject to the tax, lined up with the insurgents.

The next thing in order was to vote on the corporation tax itself. At this juncture Bacon, of Georgia, became obstreperous because Aldrich insisted on enforcing certain parliamentary rules whose effect was to prevent debate on amendments, and a situation quickly developed which rendered it uncertain for a little while whether the vote on the corporation tax would be taken before adjournment. Bacon offered several amendments which were laid on the table on the motion of Aldrich, and one of them exempted educational, religious, charitable and fraternal corporations from the two per cent levy. But at 6:55 o'clock the way was cleared for a vote, and when the roll call was finished the vice president announced that the tariff corporation tax plan had been adopted by a vote of 69 to 11.

Judge Mathias Grants Only Temporary
Injunction Holding No Wrong is DoneSays the Board May Have
Overstepped Its Power
in the Matter.ANOTHER SUIT IS FILED BY Mc-
HUGH ASKING EQUITABLE
RELIEF.WITNESSES EXAMINED AS
TO GENERAL LEGALITYLITIGATION IN PAVING CASES
MAY REQUIRE A NUMBER
OF WEEKS.

Judge Mathias heard the prayer of the City of Lima on behalf of W. L. Rogers, city solicitor, Friday afternoon for a temporary injunction disallowing the procedure of paving McKibben street. The court granted the temporary injunction and up to the present no time has been set for a hearing on the petition proper and the granting of a permanent injunction, if the evidence calls for such.

The court, in rendering his decision, stated that there was no evidence to show that the Board of Public Service had shown fraudulent purposes in awarding the contract to Shoup and company, but that the Board simply overstepped the bounds of its power in the matter.

Following the hearing of Friday, another suit seeking equitable relief was filed Friday afternoon in common pleas court by the State of Ohio on relation of William E. McHugh, against the same parties as those included in the original action. By the new action the plaintiffs seek to have the contract with Shoup and company set aside before even the injunction is made permanent. This is likely to cause quite a little trouble and the really interesting part of the proceedings is doubtless coming.

The hearing on the granting of a temporary injunction was held Friday afternoon in the office of Judge William Klinger. All sides of the question were well represented.

"Yes, boys, this is where the fellow lives what said if he had his way there would be no Fourth of July."

City Solicitor Rogers read the petition and made the usual preliminary trial statement. The solicitor held in his argument that the bid of Shoup and company was \$975.50 more than the bid of McHugh. That McHugh was thoroughly responsible and that to carry out the contract with Shoup and company would mean a mis-application of the public funds.

Kent W. Hughes, for the defense, made his trial argument. He declared that there was no reason for the action, that the Board had exercised its discretion and ability in determining the "lowest and best" bid and that it would be necessary to show fraud to shake this discretion.

The City Solicitor replied in citing a number of cases similar to the present one in which it was shown that the boards have overstepped their power. It was decided to take evidence in the case, although Mr. Hughes objected. This objection was overruled.

Mr. Harps was first called to the stand. He testified that he had made no personal investigation into McHugh's standing, and that he acted upon a recommendation from Engineer Brice in that alone.

Engineer Brice was next called to the stand and told of his talks with various persons regarding McHugh and of the warnings passed to him, stating that McHugh could not be trusted and that he would lead him to believe McHugh was a first-class street paving contractor or not, and that his principal thought was the fact that the price named in the bid was too low.

This recommendation he testified, he made to the board.

Mr. Keith was next called, testifying that he was an engineer and for a time City Engineer of Maumili, Ohio, that McHugh had carried out his contracts there satisfactorily.

T. J. Mulligan was called and testified that he thought McHugh was good as the "rest of us." Said he told Fisk the bid was too low.

J. O. Shoup, when called, testified that he had known McHugh, and spoke favorably of him to the Board of Public Service. Former City Engineer Steverling, of Springfield, Mr. McHugh's former home, told of the numerous jobs McHugh had held there, and of his stability and apparent good character. Mr. Crumrine testified regarding the bond furnished by Shoup. He stated he had written several of the references given by McHugh, but had received no replies.

McHugh himself was next placed on the stand. He told of the various big contracts he had held, told of his experience, equipment, ability and general ableness to do the work.

Service Fisk testified his reasons for not wishing to award the contract to McHugh, that it was too low, and that from outside sources he was advised that the work could not be accomplished properly at the price named. Mr. Wilson, also a member of the Board, told his reasons for not wishing McHugh to have the contract. He stated he had made no personal investigation but his opinion was made up from a remark of McHugh: "I ain't no hog and don't want all of the work, but I would like some of it."

The arguments of the attorneys were then made and were short, as

well as forceful. The Court, after hearing them, made his decision as heretofore stated. He granted the temporary injunction, but did not set a time for a hearing on the petition seeking a permanent injunction. The Court stated that he believed the Board had acted upon a misconception of its right and authority, rather than intentional defrauding.

The New Action.

The new action filed immediately after the close of the trial is entitled: The State of Ohio, ex rel William E. McHugh, against the Board of Public Service of the City of Lima, Ohio; William E. Fisk, William Wilson and W. T. Harps, members of said board; J. O. Shoup and company, a partnership, and J. O. Shoup and E. C. Baird.

The plaintiff declares that on March 1, 1909, there was a petition filed with the city council by the property owners on McKibben street from Main to Baxter streets, seeking the improvement of the street by paving.

On March 15, 1909, the petition states, council passed a resolution declaring it necessary to improve said street by paving with vitrified brick according to the petition. This resolution was approved by the mayor and published according to law.

The property owners all being served with a copy of the resolution, with a copy of the resolution, the Board of Public Service to go ahead with the matter and contract with the lowest and best bidder.

On June 2, 1909, the plaintiff avers, the bids were received and opened until noon. Among the bids was one from the defendant, J. O. Shoup and company, and also a bid from William E. McHugh. The bid of the former was \$23,610.50, while the latter's was \$22,631, both to be paved with vitrified brick, the same sort of material. The bid of McHugh, the petition states, was the lowest and best.

The relator in the petition further declares the Board did not make inquiry as to the respective ability of the contractors bidding on the matter, but, illegally, and fraudulently awarded the contract to Shoup and company. The relator further says that as soon as he was certain his bid was the lowest that he gave the Board of Public Service immediate references as to his ability, especially at his former residence, Springfield, Ohio. The relator alleges that the board hastily awarded the contract to Shoup and company and at the same time gave Shoup a contract for another street at a higher price than the other responsible bidders on the proposition.

The relator says he executed a contract and attached a bond of \$12,000 guaranteeing the performance of the provisions of the contract and that the bond was signed by the Bankers' Security company.

The Board of Public Service, so the relator goes on to state, notwithstanding all, illegally accepted from Shoup a bond executed by individuals of Lima, Ohio, and that the bond of Shoup was not as good or sufficient as that of the relator. The Board of Service, he declares, had no right to accept it.

Furthermore, relator declares that the contract and bond of the relator were approved by the City Solicitor and that the board declined to accept either contract or bond of Mc-

Hugh.

The relator says that unless restrained by order of court, the Board of Public Service and Shoup and company will proceed with the construction of the work. The Shoups have filed a contract and bond with the Board of Public Service.

A prayer that the award of the contract to Shoup and company be set aside and adjudged invalid, and that the defendant be enjoined from proceeding with construction, is asked by the relator. Also, that a writ of mandamus be issued from the court, commanding the Board of Public Service to accept the relator's bid and proposal and to enter into contract with the relator. Cable and Parmenter filed the action in behalf of the state, on relation.

Oakland City Operators Drilled for Gas And Got Crude

Special to The Daily News.
 Oakland City, Ind., July 2.—During the past few days the new Oakland City field in Pike county, Ind., has received some hard hits, at the same time some encouragement in the way of surprises on the Marland Kays farm in section 14, Patoka township, Pike county. This well was a roaring gusher when drilled in and shot but of late the crude has broken through and what was a few weeks ago a flow of gas well now has all the earmarks of a fine oiler. The field is attracting much attention from the Illinois operators who are acquiring the field in force, securing everything available and which means much development for the future. If the field proves what it is looked upon to do.

Important Oil Field.
 The most important find in the Oakland City field for some time has just been made by the Kirsch Oil and Gas Company in its No. 2 on the Marland Kays farm, section 14, Patoka township, Pike county. The well is located just 400 feet north of what is one of the largest gas wells in the field. The owners were looking for another gas well in No. 2, but much to their surprise in both the oil and gas bearing formations were found oil in great quantity. The well filled up 350 feet while drilling in and when shot Friday afternoon followed up by flowing at the rate of about 5 barrels an hour. The well was given a 100-quart shut in and, with the casing in the hole, the well collapsed the casing and left the well filled with water, so the owners now have a job pulling the pipe and putting the well into production shape. The well is also a strong gusher, and encourages operation in the vicinity which is a couple of miles north of the former oil development.

To the south of Oakland City, in Columbus township, Gibson county, Alexander and others are down close to 400 feet in an important test well in the Downey Coleman farm. As this well is a couple of miles in advance of developments, it is being watched with interest.

Drilling in Missouri.
 D. E. Fritz and others, prominent oil operators of Illinois and Pennsylvania have secured a block of about 2,000 acres in Carter, Oregon and Shannon counties in southern Missouri and are drilling a well near the Iowa of Winona, along the Frisco railroad. The well that is drilling is about 30 miles from the Arkansas line, and about 180 miles direct west of Cairo.

DEMAND FOR SUMMER PRO-

DUCTS HEAVY—CURRENTS

APPEAR.

Trade in berries, green vegetables and other hot weather products is of record proportions this week and commission merchants and market gardeners were never busier. Added to the list of canning products were currants, which arrived today. An initial price of \$3.50 a case was fixed. Another new arrival was the Black Tartan cherry from northern Michigan which sold at the rate of \$4.00 a bushel.

Meat commodities were held steady at current values. Among the dairy products, strength of eggs was the main feature. At Detroit and other markets prices were put up a trifle.

There were a few minor changes in the grains and millfed, but the general run of prices prevailed. Hay was marked up to conform to the recent uplift in the jobbing quotations.

Canada's first plant for the manufacture of crescents is to be established at Woodon, Que., by a company employing capital from the United States.
